

FOR THOSE WHO WORK ON THE WATER

ZODIAC
MULTI PRO

"Since more than 30 years, Zodiac Milpro designs and develops products for Military and Professional users around the world.

Zodiac Milpro provides standard or customized crafts as well as fully integrated solutions adapted to specific needs.

Meeting various mission requirements, training and operational readiness demands from highly specialized users is our core expertise.

Our commitment, our teams, our worldwide network of distributors, our products and services are entirely dedicated to "Those who work on the water", our worldwide community."

Marc Lavorata CEO of Zodiac Milpro

OUR GLOBAL PRESENCE

Zodiac Milpro has more than 20,000 boats in daily use with over 80 military forces and professional users across the globe.

Zodiac Milpro's global network and trained specialists are present in most parts of the world where they are ready to give assistance and support to our products and customers on demand.

Zodiac Milpro has subsidiaries with offices in Canada, USA, Australia, Spain, United Kingdom, Italy, France and Singapore (RO) as well as distributors worldwide who are all available to discuss your most specific requirements.

Zodiac Milpro Academy™:

A global organization to support maintenance and training worldwide

Zodiac Milpro has developed a network of authorized Maintenance Service Centers (MSC) for military and professional customers. MSC personnel are regularly trained and certified by our technical specialists. MSC provide proprietary repair techniques to ensure a boat's operational readiness throughout its working life anywhere in the world.

FOR THOSE WHO WORK ON THE WATER

1896: Creation of Zodiac, dirigible manufacturer

1945: First inflatable boat by Zodiac

1971: Presentation of the first RIB (Rigid Inflatable Boat) by AVON at the London boat show

1983: Creation of HURRICANE® technologies in Canada

1990: Zodiac Milpro becomes a business unit within the Zodiac Group dedicated to serving the most demanding military and professional customers.

As a stand-alone group headquartered in Paris, Zodiac Milpro has more than 100 years of technical heritage and sets the standards for military and professional inflatable and semi-rigid craft. Always at the cutting edge, Zodiac Milpro uses the DURATANE® exclusive fabric (alliance of CSM and Neoprene) and continues to meet our customer's requirements.

PROFESSIONALS

**FROM SHORE-BASED
TO SHIP-BASED SOLUTIONS**

Zodiac Milpro has dedicated a specialized team to address the needs of professional users. Our team offers complete solutions for professionals that include training, rigging, trials and specific developments adapted to meet customers' specific requirements.

We offer boats ranging from 3 to over 11 meters with accessories and solutions that bring cost-efficiency, reliability, increased work safety, comfort and easy maintenance.

Zodiac Milpro offers immediate availability of a wide range of off-the-shelf products when needed or customized products on the request of demanding customers.

**FROM SUBMARINE
TO AIRDROP SOLUTIONS**

Zodiac Milpro has acquired an unmatched level of quality and adaptability for military products. The company has in-house research and development capabilities with an industrial presence in Europe, North America and Australia that can meet the most demanding tactical and sophisticated requirements.

Responding to military users worldwide we can design, manufacture, deliver and maintain highly sophisticated craft.

ARMED FORCES

INFLATABLE BOATS

ANY TIME, ANY WEATHER®, The excellence in inflatable boats

The **Grand Raid®** boats established the Zodiac Milpro reputation. This product range constitutes the backbone of many fleets and has been recognized for decades as being simple, strong and reliable.

From 3.80 to 4.70 meters long.

The **Work Boats** are especially made to carry heavy loads safely with the best maneuverability, speed and capacities.

From 4.00 m to 7.00 m, they are able to carry payloads up to 4 000 kg and yet remain foldable.

The **Emergency Response Boats** range has been designed to meet the specific requirements of search and rescue organizations. These boats are fitted with scuba inflation attachment points as standard equipment. Offering a very light weight and compact boat, while providing rescue teams with a rapid deployment system that takes just a few minutes.

From 3.10 to 4.00 meters long.

Used daily by elite soldiers, such as the iconic **F 470®** and **CRRC®** are well known on the scene of operation throughout the world. Their unique patented hull shape provides easy planing and maneuverability even when loaded. Various floor systems allow the boats to carry combatants on a variety of missions in a large range of special applications such as AirDrop / HeliDrop and Underwater Caché.

From 4.2 to 5.3 meters long.

RIGID INFLATABLE BOATS: RESPONDERS® AND SEA RIB®

SEA RIB® Aluminium

SEA RIB® Marine and Navy

SEA RIB®

SRA: As the latest evolution of the Zodiac Milpro SEA RIB® range, the SRA boats have been designed to feature an aluminum hull and deck. They combine the benefits of the SRR range (self-draining deck, integrated fuel tank, steering, fuel and electric cable paths) along with the strength and modularity benefits of aluminum construction. The SRA range can be equipped with the D-Shape (inflated of solid foam) collar technology as well as a diver door. The SRA also offers integrated deck tracks that allow rapid reconfiguration and operational modularity.

SRR: The SRR range is the latest evolution of the Zodiac Milpro classic RIB. From 4.20 m to 8.70 m, they are fitted with a slide-on or off collar, integrated fuel tank, steering, fuel and electric cable paths as well as stowage lockers. Most have a self-draining deck and offer a large choice of layout configurations.

SRMN: The SRMN boats are world renowned as the original RIB: tough, simple and functional. They can be fitted with the DURARIB® solid foam collar.

SEA RIB®: Formerly sold under the AVON brand name, SEA RIB® are designed with a sea water ballast facility that increases their maneuverability and performance. Some versions are also available with in-board diesel engines and jet drive.

ZODIAC HURRICANE® RIBS

A UNIQUE KNOW-HOW FOR EXCEPTIONAL RIBS

Zodiac HURRICANE® RIBs are considered to be the best in the world by the most discriminating operators.

A field-proven platform, Zodiac HURRICANE® boats can be precisely adapted by our highly skilled engineering teams to meet every specific need.

Customized for each customer, built for extreme weather conditions and rough usage they can meet the most critical mission requirements.

The exceptional quality of Zodiac HURRICANE® RIBs is primarily due to the quality standards expected by the teams who design the boats. These solutions are available for many types of mission profiles and users: special forces, search and rescue missions and also for the offshore industry, adventure boats or luxury yacht tenders.

CUSTOM HURRICANE® FOR THE MOST DEMANDING USERS

We routinely develop custom solutions to meet a specific need. With sizes ranging from 20 to 45 feet (6 to 14 meters) in length and dozens of unique HURRICANE® components, we can customize boats to perfectly fit a mission profile.

EXAMPLES OF CONFIGURATION

ZH-935 MACH II IO

Hull: 9 meters / Mach II air channeled / Alu

Collar: Hybrid / Inflatable

Engine: Twin IO / Z drive

Integration: Simple console GRP / 5 Mitigated Jockey and Jump Seats: 10 Pax

Equipment electrical:

Batteries
Lights: Strobe light, Deck Lights / Standard safety equipment
Custom fuel tank / Military equipments integration
Nav Com: GPS, Sounder, Radar & Radar mast
Other equipments: FC 470® boat support ...

ZH-1110 MACH II OB CABIN

Hull: 11 meters / Mach II air channeled / Alu

Collar: Classical / Inflatable

Engine: Triple OB

Integration: Cabin / 4 mitigated seats

Equipment electrical:

4 Batteries
Lights: Strobe light, Deck Lights, Projectors
/ Standard safety equipment Custom fuel tank 1600L
Nav Com: GPS, Sounder, Radar, AIS,
Thermo IR Camera / ...

ZODIAC HURRICANE®: PRE ENGINEERED TURNKEY SOLUTIONS

Commando Turnkeys

Designed for use by 2-man or larger crews, with hull design and seating arrangements to mitigate shock, maximize seaworthiness, and minimize radar signature for operating in hostile areas.

630 IO; 733 IO; 753 OB; 920 OB; 933 OB.

Law Enforcement Turnkeys

Designed for one, two, or small crew with stand-up center consoles and T-tops. 662 OB; 753 OB.

Search and Rescue Turnkeys

Designed to work independently, with jockey seats and self-righting capabilities. 753 OB; 933 aft IO.

Cabin Turnkeys

Designed to carry 2 to 6 crew in comfort, safe in heavy weather, fully-enclosed, heated cabin. 920 OB; 11.10 aft IO.

IN THE AIR, ON THE GROUND, ON AND UNDER THE WATER

"We help our customers to design and improve their own organization, to increase their capabilities and performance by providing personalized consulting, training, refinement programs and cost controls advice."

Bruno Marion, Services Manager

CONSULTING

Your efficiency is our guideline. We provide consultation services to professional and military customers who want to create, or expand their activities in the professional or military maritime related sectors. Our experts will help you build your teams, choose your material, determine procedures and manage your new activity and techniques.

- Creation and optimization of operational units
- Assessment of mission, organization and technical requirement
- Diversification in the maritime sector

TRAINING

Our training is provided via standard programs or is adapted to users' needs. Programs are managed by an expert training team whose members gained their experience through years spent with the maritime and offshore industry, military and special forces, coast guards and law enforcement organizations.

- Learning basic techniques
- Refinement of advanced techniques
- Training in special techniques

INTEGRATED LOGISTIC SUPPORT: ILS

Designed to maximize the customer's fleet readiness, our Integrated Logistic Support solutions increase organization and team efficiency while reducing maintenance and operating costs.

- Maintenance cost optimization
- Lifespan maximization
- Increased operational readiness
